ITCA 
ITALIAN TRADE AGENCY

Sustainability is SustainabITALY

Italy is the 2nd supplier to the UAE of components for the Oil & Gas Industry in the first half of 2023, with over 87 million Euros worth of products exported and is the first largest manufacturing country in this sector among the 27 European countries.

Italian components and technologies for the energy industry are highly demanded all around the world and the country is the 4th supplier to the UAE of components for oil and gas industry with almost Euro 158 million worth of products exported in 2022 (+10,5% compared to 2021).

Looking at the world's current geopolitical framework, aggravated by a two-year pandemic, the resulting crisis has necessitated a large-scale repositioning of energy supplies from traditional fossil sources and an increasingly shared use of renewable energy sources. Four major trends are driving the future of global energy: the decline in the role of hydrocarbons, the rapid expansion of renewables, increasing electrification, and the increasing use of low-carbon hydrogen. Against this backdrop, new opportunities are opening up for the plant engineering industry.

Italian industry is taking an increasingly crucial role in the transformation of the Oil & Gas supply chain towards environmental sustainability demonstrating that sustainability can go hand in hand with operational efficiency and economic success. Companies are investing in innovation and finding sustainable solutions to meet the challenges of the industry, this commitment is important to ensure a more sustainable and clean future for generations to come. Investments in research to develop new technologies and more sustainable processes have led to considerable innovations in the Oil & Gas supply chain.

Italian exhibitors at ADIPEC 2023 represent the excellence operating in the manufacturing components and technology system, committed to deliver the highest products in the Gulf area under the claim "Sustainability is Sustainab-ITALY."

ITALIAN TRADE AGENCY - ITA

ITALIAN TRADE AGENCY

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy. With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multichannel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

TRADE AND INVESTMENT

OPEN DOORS TO WORLD
OF OPPORTUNITIES

Find Your Italian Partner

ITA - Italian Trade Agency supports the business development of Italian companies abroad, increases business opportunities, improves the image of 'Made in Italy', promotes industrial collaboration and foreign investment in Italy. Find your Italian partner in a business directory with virtual showcases of Made in Italy companies. We offer you an overview of Italian businesses, including company profiles, products images and details, website, business proposals and contact information. Foreign companies or agent interested in Italian products or looking for partnership with Italian companies, can access the database with the profiles, searchable by sector or product, and find a business partner.

ANIMA - Federation of Italian Associations of Mechanical and Engineering Industries

ANIMA[®]
CONFINDUSTRIA
MECCANICA VARIA

ANIMA - Federation of Italian Associations of Mechanical and Engineering Industries, represents within Confindustria companies of mechanical sector (225.000 employees, with 54,6 billion Euro production and 57,0% export share - estimates 2022). Established in 1914, ANIMA numbers 31 associations and 1,000 companies, highly qualified in their sectors.

Macrosectors and technologies represented:

- Energy Production and Oil & Gas Industry
- Logistics and Handling
- Water and Food Industry
- Building
- Personal Security and Safety
- Metallic Products

ANIMA safeguards interests of the mechanical industry, represents and promotes member-companies and their products in Italy and abroad, supports members both in technical and economic issues.

The companies joining ANIMA are strongly committed to promoting the energy transition in their business and production processes. A working group dedicated to research and application of Hydrogen for Energy Production is also active within the Federation.

3V TECH

Stand No. 1160 - 8

3V TECH is consolidated supplier in Oil&Gas sector which offer pilot & laboratory test, feasibility & consulting studies, basic & detailed engineering, fabrication of static equipment (reactors, pressure vessels in high alloys) & skid assembly, after sales service for industrial water treatment plants.

3V TECH core technologies are:

- Wet Oxidation (WAO) & Advanced Oxidation (AOP) system for toxic waste water with high COD (spent caustic in Oil&Gas)
- Evaporation, concentration, crystallization, Zero liquid Discharge (ZLD)
- Stripping (Benzene, BTEX) & Scrubbing
- Ammonia extraction systems
- Hazardous Waste Water Treatment

AUSONIA SRL

Stand No. 1160 - 15

AUSONIA, CUTTING-EDGE TECHNOLOGY LEADER IN POWER GENERATION SYSTEMS.

In an area covering 32.000 sqm, Ausonia designs, manufactures and sells a wide range of standard gensets solutions in the range up to 4000 kVA for each single unit.

Within its tried & tested products offering, Ausonia includes AC Generators, DC Generators, Co-generation and Tri-generation systems (CHP/CCHP), Hybrid Gensets and DC Battery Systems, Renewables-integrated Power solutions, Low & Medium Voltage Power Plants, Mobile Gensets on wheels and many others power systems configurations. Counting on its 100 years' experience in the design and production of tailor-made energy solutions designed around specific Customers' needs, Ausonia is ready to customize the products according to the strictest technical requirements.

All the main players operating in highly critical sectors such as Oil & Gas, Data Centers, Defense, Transport, Telecommunications, Building and Infrastructures, have chosen Ausonia as their energy partner for their projects.

CEMP SRL

Stand No. 1160 - 11

Established in 1954, Cemp was among the first companies in Italy to manufacture flameproof motors.

Over the years, the product range has broadened introducing flameproof motors with brake, electric pumps for printing machines, flameproof motors for Group IIC gases and for mining, non-sparking and safe area motors.

In 2014 Cemp has been acquired by Regal Rexnord Corporation. Cemp offers, besides standard products, a consulting and engineering service to offer "tailor made" special motors to customers' requirements. In almost seventy years of activity, it has supplied the market with more than a million units.

CEMP motors are suitable in chemical, petrochemical, and pharmaceutical plants, in refineries, thermoelectric plants, mines, offshore oil platforms, oil pipelines, gas pipelines, on board ships, printing machines and other industrial environments; wherever it is necessary to prevent from explosions and fires due to gases, powders or inflammable liquids.

COIMEC COIBENTAZIONI TERMOACUSTICHE SPA

Stand No. 1160 - 17

COIMEC COIBENTAZIONI TERMOACUSTICHE SPA is part of an Italian group operating in the construction and industrial fields for more than 40 years; The Company is leader in the field of insulation and scaffolding for industrial and civil plants (new and existing)

COIMEC COIBENTAZIONI TERMOACUSTICHE SPA covers more than 80 simultaneous active worksites (in Italy and abroad) where further 200 people work daily, with a consolidated annual revenue of over € 40 million.

Areas of activities:

- Industrial Plants
- Offshore
- Oil & Gas
- Energy production
- Chemical and Pharmaceutical
- Gas and steam turbine energy production
- Skids
- Tanks
- H.V.A.C. Plant - Service sector
- Acoustics
- Fire proofing compartmentations
- Scaffolding
- Thermal Blanket and acoustics insulation

CVB VALVES SRL

Stand No. 1160 - 18

CVB Valves s.r.l., located at 20 Km NW of Milan, with more than 40 years of experience, is a mainly manufacturer of engineered and tailor-made valves and equipment. The company is proud to be recognized for its history of technological innovation and its reputation for custom-engineered solutions for any Customer's challenges, combining reliability, efficiency, to deliver dedicated equipment to exceed the highest safety standards for the most extreme operating environmental applications.

CVB is a premier supplier of Butterfly High Performance Double and Triple Offset, Control Globe valves for Turbine bypass, Ball (Side Entry, Top Entry, Floating and DBB), Gate, Globe, Check (Swing, Piston, Dual Plate and Axial Flow) valves.

All our valves are manufactured and tested according to International Codes and Standards such as API, ASTM, ANSI, ATEX, PED, CE, ASME Pressure Vessel Code AWWA as applicable and/or required by customers for Oil & Gas, Petrochemical, Water, Nuclear, Naval, Aerospace, Medical, Food and Beverage Fields.

CVB has developed a network of qualified suppliers to keep under control all the manufacturing steps through a continuous monitoring, expediting and inspections process as per our QA System Manual ISO 9001.

DE PRETTO INDUSTRIE SRL

Stand No. 1160 - 13

De Pretto Industrie, with a heritage of more than 130 years, has today two Business Units: Turbomachinery and Special Projects.

In the Turbomachinery Business Unit De Pretto is acting as an Original Equipment Manufacturer (OEM) for new steam turbine generator sets up to 50MW but also as an Independent Service Provider (ISP). With 200+ turbomachines installed De Pretto delivers high quality, efficiency and reliability rotating machinery.

De Pretto Industrie Special Projects Business Unit specializes in the development (Design, Engineering, in-house Manufacturing and Testing) of tailor-made mechanical equipment for a wide range of industrial applications in the Oil&Gas, Renewable and Nuclear industries.

Our products include:

- Fluid Swivels, New or Refurbished
- Vessel's Pipe Laying & Handling Systems
- Subsea Trencher, Intervention Tools and Repair Modules
- Jacket Pile Gripper for Offshore Wind farms

FLUID TRANSFER SWIVEL

- Single or Multiple Fluid Paths

DONADONSDD

Stand No. 1160 - 20

As an ADNOC-approved manufacturer, DonadonSDD is a premier Italian authority in industrial protection, specializing in the production of rupture discs, holders, rupture indicators, and explosion vent panels. For over seventy years, we have consistently invested in cutting-edge technology to ensure the safety of industrial plants worldwide.

Bursting discs play a crucial role in safeguarding systems against the dangers of pressure fluctuations. These discs are designed to burst at a predetermined pressure, thereby preventing overpressure or vacuum events and potential damage or failure of equipment. Easy to install, hermetically sealed, highly versatile, and maintenance-free, they stand as a testament to our commitment to operational efficiency and system safety.

Our operational and procedural standards align with ISO 9001 and 9100 standards, reinforcing our dedication to quality. Our products carry certifications from internationally recognized authorities, including ASME XIII, PED, UKCA, ATEX, EAC, 3-A, and MOCA, further solidifying our standing as an industry leader.

EFFIND SRL A SOCIO UNICO

Stand No. 1160 - 19

EFFIND has been on European and worldwide market for many years serving oil & gas (onshore and offshore), chemical, petrochemical, naval and power-energy industries.

EFFIND manufactures and trades flanges according to the main international norms, connections for piping, tube sheets as well as special items according to drawing in all sizes and ratings, in the following grades: carbon steel, stainless steel, alloy steel, duplex and super duplex, nickel alloys.

EFFIND can also manufacture particulars used in the heat exchangers and pressure vessels and also deals with the most common full package items (elbows, tees, fittings, gaskets, stud-bolts, tube-sheets, closure for valves, headers for heat exchangers).

EFFIND is expert in the supply of components to main refineries all over the world.

EUROCONTROLLI SRL

Stand No. 1160 - 14

Eurocontrolli is an international System Integrator with more than 25 years of experience in the delivery of mission critical projects worldwide. Through our offices in Milan, Dubai and Abu Dhabi, we are able to serve any Client in any country. Our mission is to design, deliver and maintain Telecom, Security and Fire & Gas systems for critical infrastructures, from Oil & Gas facilities to Industrial and Governmental assets.

Our integrated solutions include:

- Maritime and Land Surveillance systems (Radars, Long Range Thermal Cameras)
- Security systems (CCTV, Access Control, Intrusion Detection)
- Telecom and Safety Systems (PA/GA, Data Networks, UHF/VHF, TETRA, LTE)
- PSIM and Command, Control & Intelligence (C2I)
- Building Automation and Management
- Fire protection systems up to SIL3 (Gas detection, Fire detection, Alarm devices, Fire suppression) both for Safe and Hazardous environments.

FORNOVO GAS SPA

Stand No. 1160 - 5

Fornovo Gas SPA offers the unique advantage of more than 50 years experience in manufacturing of reciprocating compressors for CNG, biogas&biomethane and technical gases, in compliance with engineering quality criteria. We play among the global industry leaders, with more than 2500 compressor units installed worldwide in the most severe atmospheric and structural conditions.

On the strength of this recognition, Fornovo Gas has consistently extended its compressor range, also conceiving the double distance-piece cylinder, that grants exceptional technical performance and process versatility.

Cutting-edge studies on innovative materials have enabled our R&D department to develop highly performant sealing systems tailored for the HP compression of different gases, including the peculiar hydrogen molecule, by securing the utmost levels of purity and minimizing both lubrication and contamination.

Fornovo Gas SPA is a Benefit Society (EU Framework) committed to the people's wellbeing and to the environment.

GBA FLARES AND COMBUSTION TECHNOLOGIES

Stand No. 1160 - 1

GBA is an internationally based supplier of Combustion Equipment to the world's Oil and Gas, and Petrochemical Industries (see more at www.gba.com).

Our company was founded in 1985 and it mainly focuses of the engineering, design and supply of Flare Packages. During recent years, GBA has vastly expanded the product range of equipment that can be supplied.

As a matter of fact, please find here below a complete list of the products offered by GBA:

- Flare Packages (Elevated Flares/Demountable Flare/Enclosed Ground Flares etc.).
- Thermal oxidizers/Incinerators for waste gases and liquids.
- SRU Tail gas incinerators.
- SRU reaction furnaces.
- SRU RGG: Reducing Gas Generators.
- Direct Fired Air Heaters (UOP process, for instance).
- Combustors, for instance spent sulphuric acid (liquid) combustors.
- Vapor Combustion Units (VCU) for Vapor Recovery Systems, Bitumen Vapors.
- Recuperative solutions for Thermal Oxidizers, including Waste Heat Boilers (supply and detailed design by sub-vendors).
- Regenerative Thermal Oxidizer (RTO).
- Mobile combustion units.

LA MECCANICA PADANA SRL

Stand No. 1160 - 28

La Meccanica Padana, since 1954, is located in Northern Italy.

We are a manufacturer of mechanical components, mainly for Oil & Gas, Petrochemical and Power Energy industries and, recently, for Aerospace Industry. By taking care of the complete manufacturing process, we're specialized in manufacturing of complex parts, forged fittings and strainers, in all materials.

PRODUCTION RANGE

- Spectacle blind, spacer ring, paddle blind, drip ring in all type of dimensions and standard or exotic materials. We can perform Cladding & Weld Overlay.
- Flanges and Forged fittings on drawings in exotic materials:
- Forged Fittings in Urea material for the Fertilizers Industry (Ex: Saipem TB5002)
- Special pieces with calculations: Orifice Plates, Venturis, Pad Flanges, Injection Quills, Welded Assemblies & Equipment.
- Carbamate Mixers & Ejectors

Please also note that we have opened and now it's operative a new manufacturing facility in Saudi Arabia in Dammam 2nd Industrial Area.

RIGANTI SPA

Stand No. 1160 - 7

Riganti, founded in 1891, is a closed die forging master by mean of counterblow hammers, combining the flexibility of a craftsmanlike production with a state of the art technological know-how of a modern manufacturing enterprise.

Riganti serves major markets and customers worldwide with a wide range of components in different steel grades (carbon, stainless and nickel alloys) and sizes from 15kgs (33lbs) to 1,800kgs (3,900lbs). All items can be supplied forged, heat treated, machined, painted and ready for assembly and can be certified by the most important international bodies.

Customer satisfaction and quality are the main drivers with a fully integrated QEHS certified system.

OIL AND GAS as special focus:

We supply the main valve manufacturers with closed die forgings for components as gate (1" to 7") and choke (1" to 9") valve bodies, ball valves up to 14", closures up to 12" and fittings.

RINA

Stand No. 1160 - 21

RINA, with an extensive international experience in a wide range of engineering and consulting services, assists operators, project developers, banks and investors and EPC contractors, across the plant's lifecycle. RINA helps clients maximise their operability, reliability and safety, while also minimising maintenance costs, supporting customers through shutdown and decommissioning.

Rina is a primary player in the energy transition underway, offering services for systems, plants and infrastructure, from oil & gas and power generation plants - including conventional, nuclear and renewable sources - to transport and distribution infrastructures. Additionally, RINA provides expert skills in the fields of permitting, HSE and materials.

SKEM@ SRL

Stand No. 1160 - 3

Skem@ S.r.l. is an Industrial Solution Provider specialized in offering comprehensive Engineering and Consulting Services throughout the lifecycle of projects in the "Oil & Gas", "Petrochemical", and "Power" fields, with focus on Electrical, Instrumentation & Automation Engineering.

Main expertise and know-how are in the field of Polyolefins. Thanks to the cooperation with private Research Centers and the local Universities, Skem@ is carrying on projects in the fields of smart grids (by using the A.I.), sustainable energy by the development of an alkaline electrolyzer for the production of green hydrogen, and the electric mobility.

Our services range from Feasibility Studies to Construction Supervision, Commissioning and Start-up Assistance through Detailed Design including Project Management and Procurement. We also offer totally integrated automation and safety solutions for the control and safe operation of industrial processes.

Our Clients include major Oil and Gas, Petrochemical and Power Companies, and EPC Contractors.

TIMELAPSELAB - CONSTRUCTION SITE MONITORING

Stand No. 1160 - 22

We're driving a revolution in construction site monitoring, employing cutting-edge devices in tandem with AI solutions that are reshaping the industry. Our startup specializes in delivering advanced monitoring tools meticulously crafted for construction sites. These are complemented by our AI software, a powerhouse of innovation that's globally recognized.

Thanks to a wide range of products and services, we combine the production of plug and play devices, resistant to all critical issues, with a functional management platform for remote control of jobs with a lot of information for user (alert for lack of helmet, weather data & forecast, number and type of vehicles, productivity, etc)

Our overarching mission extends beyond borders—our goal is to spearhead global expansion that paves the way for enhanced safety measures, heightened efficiency, and robust data privacy

ZUCCHETTI SRL

Stand No. 1160 - 12

Since 1964 ZUCCHETTI designs and manufactures a wide range of customized industrial agitators and mixers for critical applications accordingly to the specifications of worldwide recognized licensors of ABS/HDPE/LDPE/PE/PET/PP/PTFE/PVC/SBR.

ZUCCHETTI is a solid landmark for international EPC and a reliable partner able to manage all process phases from the engineering to the manufacturing and after-sales.

ZUCCHETTI MIXERS Technical Data:

- Installed power up to 600 kW
- Shaft with diameter up to 400 mm and length up to 20,000 mm
- Impellers with diameter up to 6,000 mm
- Single, Double and Triple Mechanical Seal
- Magnetic Coupling
- WP: Carbon Steel, Hastelloy, Monel, SS, Titanium
