Construction Machinery Industry Excavator Sales in January 2026

According to statistics from the China Construction Machinery Industry Association on major excavator manufacturers, 18,708 excavators of various types were sold in January 2026, a year-on-year increase of 49.5%. Domestic sales were 8,723 units (including 24 electric excavators), a year-on-year increase of 61.4%; exports were 9,985 units (including 11 electric excavators), a year-on-year increase of 40.5%. **(China Construction Machinery Industry Association)**

Construction Machinery Industry Loader Sales in January 2026

According to statistics from the China Construction Machinery Industry Association on major loader manufacturers, 11,759 loaders of various types were sold in January 2026, a year-on-year increase of 48.5%. Domestic sales were 5,293 units (including 2,701 electric loaders), a year-on-year increase of 42.8%; exports were 6,466 units (including 289 electric loaders), a year-on-year increase of 53.4%. **(China Construction Machinery Industry Association)**

Sales of Graders in the Construction Machinery Industry in January 2026

According to statistics from the China Construction Machinery Industry Association on major grader manufacturers, 754 graders of various types were sold in January 2026, an increase of 8.02% year-on-year. Domestic sales were 104 units, a decrease of 8.77% year-on-year; exports were 650 units, an increase of 11.3% year-on-year. **(China Construction Machinery Industry Association)**

Sales of Truck Cranes in the Construction Machinery Industry in January 2026

According to statistics from the China Construction Machinery Industry Association on major truck crane manufacturers, 1,630 truck cranes of various types were sold in January 2026, an increase of 28.7% year-on-year. Domestic sales were 821 units, an increase of 55.2% year-on-year; exports were 809 units, an increase of 9.62% year-on-year. **(China Construction Machinery Industry Association)**

Sales of Tracked Cranes in the Construction Machinery Industry in January 2026

According to statistics from the China Construction Machinery Industry Association on major crawler crane manufacturers, 301 crawler cranes of various types were sold in January 2026, an increase of 73% year-on-year. Domestic sales were 88 units, an increase of 126% year-on-year; exports were 213 units, an increase of 57.8% year-on-year. **(China Construction Machinery Industry Association)**
