JEWELERS INTERNATIONAL SHOWCASE 2019

October 4-7, 2019

Miami Beach
Convention
Center

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy. With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

THE EXTRAORDINARY
ITALIAN JEWELRY

Here in the U.S., the Houston office provides the American market details to those Italian companies looking to develop and expand their relationships into the United States. On the other hand, foreign companies can find up-to-date information on the Italian jewelry market and details of trade shows like exhibitions held in Italy and Italian presence in the United States throughout the year. An easy way to get in touch with Italian partners after the JIS show is via the website at www.ice.it/en or www.teijewelry.com

Dear Exhibitor and Attendee

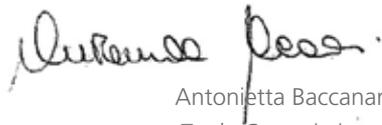

I would like to extend to all of you a warm welcome to the Italian Pavilion at JIS October 2019. The Italian Trade Agency is honored to participate to JIS October for the consecutive 4th time. JIS is a key event for the jewelry market not only in the US but as well for the Caribbean and South American markets, for this reason is important to be present with a strong Italian presence.

The Italian jewelry is a vibrant and constantly growing sector, eager to establish new relationships around the world. More than 80% of Italian production – mostly fine jewels - is destined for foreign markets where U.S.A. represents the third target market with a share of 9.5% of the total export.

The total import of “Made in Italy” jewelry (HS 71) in the USA for the first semester of 2019, has reached a value of nearly 800 million USD, registering a slight but consistent increase of 1.57% compared to the same period of 2018. This result is even more relevant if we take in consideration that the total US import for this code has registered a 9.77% decrease. The Italian Jewelry import market share in the US represents 2.53% placing Italy 10th in the US supplier ranking gaining 3 positions from the end of 2018, while among our European competitors we are in third position.

The Italian Pavilion will present a selection of leading Italian jewelry firms and organizations, collectively, exhibiting a wide range of products and services: you can find only important, trendy, authentic and qualified companies coming from all the 4 most important Italian clusters (Vicenza, Valenza, Arezzo and Marcanise/Torre del Greco) and more.

These companies embody the excellence, the quality, the technology, the tradition and the trends, all-Italian craftsmanship. We will be pleased to welcome you at the Italian Pavilion and we are looking forward to working closely with you.

Antonietta Baccanari
Trade Commissioner

Fascinated as a child, from the stories of captivity of my grandfather, who to replace the "true nuptial" donated to the Fatherland, improvised a goldsmith, and made from a silver coin, the jewelery sign of intimacy with his beloved. Pure emotion. From here, "Antonella Brilla Gioielli" is born, a sartorial goldsmith atelier. The search for valuable solutions creates works of distinctive personality: this is the "Oneira" project ... a dream!

We create jewels totally made by hand which are unique and exclusive pieces. When I create a gold jewel, I give shape to a miniature sculpture and I find inspiration in the absolute beauty of nature, and by all the creatures which populate it: starfish, sea-horses, octopus, fish, surrounded by precious corals, Australian pearls, aquamarine, diamonds, turquoise, opals, which I choose personally. I share this wonderful passion of "Creating for You".
