

Ministry of Finance:
Infrastructure and Projects Division

Partnering for Israel's Future - Advancing National Infrastructure

About Us

The Infrastructure and Projects Division of the Accountant General's Office leads the development of Israel's most critical public infrastructure through Public-Private Partnerships (PPPs). We oversee mega-projects in energy, transportation, water resources, waste management, and public construction, ensuring innovative, efficient, and sustainable infrastructure solutions.

Our mission is to foster a competitive market, encourage international investment, and address key national challenges, such as energy security, transportation efficiency, and water scarcity.
