Laboratorio Artigianale di Mortadelle

ARTIGIANQUALITY

Laboratorio artigianale di mortadelle

Our mortadellas are a family pride. They are the result of a long craftsmanship know-how and the recipe developed by Silvio Scapin, a historic Bolognese butcher, who respects the canons of the healthy nutrition.

The fresh meat we work comes only from semi-wild or wild farms. To make our products different from those proposed by others, it is essential that the relationship between us and the breeders is personal and of mutual trust in the working method.

Our range of artisan mortadellas offers 9 different recipes.

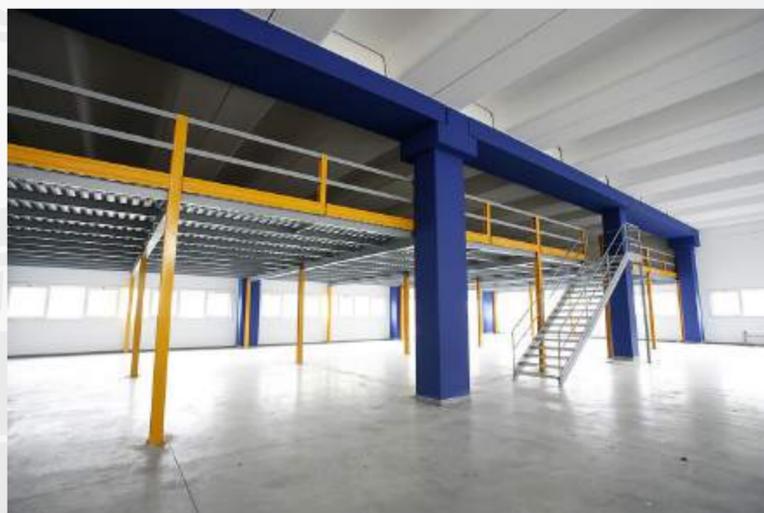

Each type is the result of meticulous research and craftsmanship gained in fifty years of experience.

We satisfy our customers by also offering recipes with the addition of Pistacchio di Bronte DOP or Tartufo nero di Cagli.
